

Appendix F

**EIS Disclosure Statement Concerning the
Preparation of an EIS/EIR for the
Lower Colorado River Multi-Species
Habitat Conservation Plan**

**EIS DISCLOSURE STATEMENT CONCERNING THE PREPARATION OF AN
EIS/EIR FOR THE LOWER COLORADO RIVER MULTI-SPECIES HABITAT
CONSERVATION PLAN**

I, Diane Keep, of Science Applications International Corporation, have made inquiry and to the best of my knowledge and belief declare that executing the contracted work of preparing the EIS/EIR for the Lower Colorado River Multi-Species Habitat Conservation Plan does not represent an actual or potential conflict of interest and that Science Applications International Corporation does not have any financial or other interest in the outcome of the this project.

I understand the term “conflict of interest” to mean that because of other activities or relationships with other persons, the contractor is unable or potentially unable to render impartial assistance or advice to the Government, or the contractor’s objectivity in performing the contract work is or might be otherwise impaired, or the contractor may have an unfair competitive advantage. I understand the phrase “no financial or other special interest in the outcome of this project” to include any financial benefits such as promise of future construction or design work on the project, as well as indirect benefits the consultant is aware of other than the enhancement of the contractor’s professional reputation.
